

SUPrema CLUe

Easy Integration, Securely Managed
Open Cloud Integration Platform

What is CLUe?

Suprema CLUe is an open cloud integration platform built on a native cloud architecture, eliminating the need for an on-premise server. Devices connect directly to the cloud, supporting pure cloud-to-cloud server-level integration using standard REST-APIs. It is ideal for various membership management services, such as fitness centers, shared offices, multi-branch offices, and more.

Key Features

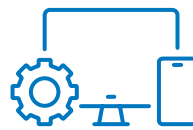

Easy Integration and Cost Efficient

By leveraging the benefits of cloud services, the management and integration of Suprema devices become extremely easy and simple.

Advanced Access Control with Multi-Credentials

Achieve high-level biometrics security with CLUe. CLUe enhances access control by integrating Suprema's multi-credential options, including biometrics.

Easy Multi-Location Management via Web Portal

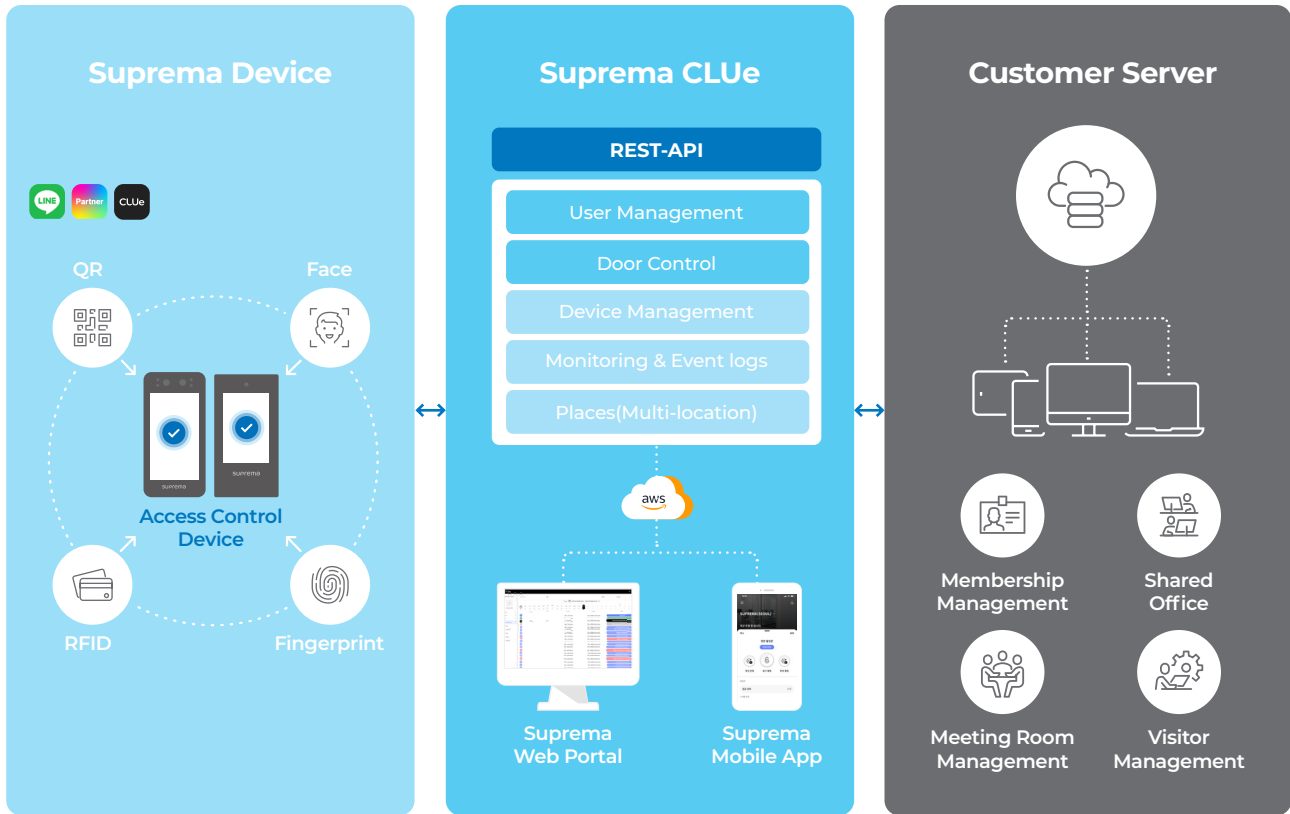

CLUe offers a platform capable of managing your scaling location demands with a web-portal and mobile application service for administrators to access any of their locations without a time and distance limitation.

Reliable Security Partner

Suprema is certified with CSA STAR Level 2 for cloud security, along with ISO 27001, ISO 27701, AES-256, Secure Element (SE), Secure Boot, and data encryption.

How it Works?

Case Study

Screen Golf – Facial Authentication

A screen golf facility adopted CLUe for access control, requiring users to use facial authentication for entry.

Fitness Center – Dynamic QR

A leading fitness center adopted CLUe for access control, allowing users to conveniently access the facility using dynamic QR codes.

Shared Facility – Fingerprint Recognition

A shared facility adopted CLUe to streamline access control management and enhance security. Users can now access the place using fingerprint recognition.
