Guide for Installation and Enrollment

Precautions for FaceStation F2 installation

| Keep out of direct sunlight. | Install it following the optimal height: **FSF2-ODB**: 124 cm ∣ **FSF2-AB,DB**: 127 cm | Operate it within -20°C–50°C (-4°F–122°F). | Do not install it in a dark place. | Do not install where the subject is backlit. |

How to enroll Visual Face

FaceStation F2 uses Visual Face taken with a visual camera as a means of authentication. Visual Face is an authentication method that distinguishes it from face templates used in face recognition terminals, allowing users to enroll faces in a variety of convenient ways.

Enroll Visual Face on FaceStation F2	Enroll Visual Face on BioStar 2		
Enroll Visual Face directly on FaceStation F2.	Take a picture using FaceStation F2 or upload an image file.	Take a picture using a mobile device by following the link sent from BioStar 2.	Import a CSV file.

Note: · Activate the BioStar 2 Cloud before enrolling Visual Face using a mobile device. It requires the Standard or higher license to use this feature.
· If the Visual Face enrollment using a mobile device fails, enroll directly on the FaceStation F2.
· The Visual Face enrollment link sent is only valid for 24 hours.
· Refer to the BioStar 2 help manual to learn more about each method.
